Astaro Products

[ASG Hardware Appliances](#)

[ASG Software Appliances](#)

[ASG Virtual Appliances](#)

Security Applications

Essential Firewall Base License

Features Stateful Firewall, NAT, PPTP & L2TP Remote Access, Local Authentication, Local Logging, Essential Reporting

Network Security Subscription

Features Intrusion Prevention, IPSec/SSL VPN & Remote Access, VoIP Security, Advanced Routing, Advanced Networking, User Portal, Remote Authentication, Remote Logging, Advanced Reporting and HA

Mail Security Subscription

Features Antivirus, Antispam, Phishing Protection, Email Encryption, Advanced Networking, User Portal, Remote Authentication, Remote Logging, Advanced Reporting and HA

Web Security Subscription

Features Antivirus, Spyware Protection, URL Filtering, HTTPS Scanning, IM/P2P Control, User Reporting, Advanced Networking, User Portal, Remote Authentication, Remote Logging, Advanced Reporting and HA

Support Services

Web Support

Included free-of-charge with every Astaro Security Gateway base license. Web support offers a 72 hour "bring in" hardware replacement (during the warranty period) as well as access to support platforms such as the Astaro Knowledgebase and MyAstaro.

Standard Support

Included with every Network, Web or Mail Security subscription purchased. Standard support offers a 24 hour "bring in" hardware replacement, automatic software updates as well as technical 10*5 support via Astaro partners.

Premium Support

An optional support upgrade which can be purchased for 1, 3 or 5 years. Premium support offers a 24 hour upfront hardware replacement, software updates as well as technical 24*7 support via Astaro engineers – beginning with activation-key entry within the MyAstaro-Portal.

Please refer to the Astaro Support Services Reference Guide for further information

User & Cluster Upgrades

Upgrading a license to the next user level or enabling clustering is free of charge and can be done by customers/partners in MyAstaro.

Conversion is fully automatic, no separate order is needed.

Remaining months of active subscriptions will be automatically reduced by the same factor of user/cluster node upgrade.

Examples:

Upgrading a 25 user license with remaining mail subscription of 6 months will result in a 50 user license with remaining 3 months of mail subscription.

Enabling clustering on a unit with remaining mail subscription of 6 months will result in a 2-node cluster with remaining 3 months of mail subscription for both nodes.

Upgrading this license from 2 to 3 cluster nodes will result in 2 months of mail subscription for all 3 nodes.

Cluster Licenses can now be upgraded with regular License Upgrade keys.

Renewal duration will be automatically and evenly distributed among all cluster nodes.

Example:

Adding a 1 year mail renewal to a 3-node cluster license results in a total license extension of "4 months mail subscription" per node.

Notes:

All Astaro products in an organization must be on the same level of support or maintenance.

Astaro technical support can be contacted through MyAstaro at: <https://my.astaro.com>
